

STORM SYSTEM DECK RESURFACER

Storm System Deck Resurfacer is a 100% acrylic flat solid finish designed for use on decks that have cracked boards or that have been exposed to elements for a significant period. This high build system product is designed to bridge small cracks and to prolong the life of decks that would normally not hold conventional stain products.

Storm System Deck Resurfacer exceeds ADA standards for slip coefficient.

- Peel Resistant Finish
- Outstanding Vapor Transmitting Film
- Excellent Adhesion
- Special Elongating Fibers
